

**THE PANASONIC
COMMUNICATE
ON THE MOVE
COMPANY.**

The Panasonic Tactical Video Teleconferencing (VTC) solution combines the high-definition imaging of a Panasonic plasma display with Polycom's HD videoconferencing and JELCO's custom mobile lift case for a best-in-class mobile product that has significant advantages over a rolling cart or wall-mounted VTC installations. From rapid deployment to streamlining mission-critical information, it's the ultimate solution for the Department of Defense.

STREAMLINE INFORMATION

Panasonic's Tactical VTC solution provides a direct line of contact from remote locations with the use of high-quality video and audio communications. Whether used for mission planning, training simulations or educational classes, it provides a highly mobile, reliable communication system that keeps all parties informed and up to date.

RAPID DEPLOYMENT

Panasonic's Tactical VTC solution provides a wide variety of uses, from the ability to roll it down a hall to taking it to the field for tactical videoconferencing. In addition, the Panasonic display fits comfortably into the JELCO shock-mounted mobile lift case for maximum protection in transit, providing safe shipping to any environment.

SOLUTIONS IS OUR MIDDLE NAME

Panasonic has partnered with industry-leading solution providers to offer a comprehensive tactical VTC system that includes:

- **Panasonic PF30 Series full-HD Plasma Displays**
- **Polycom® HDX® 8000 Series**
- **JELCO's custom mobile lift case**

ADDITIONAL BENEFITS

- The Panasonic Tactical VTC solution is ideal for rapid-setup applications.
- Panasonic's PF30 Series allows for clear and precise image quality with the industry's highest contrast ratio of 5,000,000:1.
- Camera has quick release and protective interior storage in the case lid.
- Mounted speakers allow for no additional equipment, wires or setup.
- Stabilizer plate protects against tipping over in outdoor environments.
- Field tactical locking casters ensure the VTC solution stays securely in place.
